New Project Development

To enhance the golfing experience of our patrons, a new and exciting development will soon be unveiled at Marina Bay Golf Course.

The new development will involve landscaping works at the club house slope and practice green areas from 10 April to 31 October 2017.

Practice green 4 (for chipping) and the practice bunker will be permanently closed. A new practice bunker will be created alongside a revamped practice green 3.

Landscaping works will take place in three phases*:

Phase 1 **(26 June – 16 July)**	Redevelopment Works at Club House Slope
Phase 2 **(3 July – 30 July)**	Modifications to Practice Green 1, 3 and 4 Redevelopment Works at Barricaded Areas on the Practice Green
Phase 3 **(July - October)**	Turf Grow-in Period and Maintenance

Please avoid the barricaded areas during the redevelopment period.

We regret any inconvenience caused and seek your tolerance of the noise levels while the landscaping works are being carried out.
